Annexes 15

Annex 1: Supported programmes and organisational units 16

1. Definitions

Any KDP: the 2020 Cooperative Doctoral Programme, the 2021 Cooperative Doctoral Programme, the 2021 Cooperative Doctoral Programme National Defence Subprogramme, the 2023 Cooperative Doctoral Programme, and the Cooperative Doctoral Programme implemented within the University Research Scholarship Program

EKÖP: University Research Scholarship Program

EKÖP-KDP: Cooperative Doctoral Programme implemented as part of the University Research Scholarship Program

Government Decree: Government Decree 24/2013. (II. 5.) on national excellence in higher education

NRDI Fund: National Research, Development and Innovation Fund

NRDI Office: National Research, Development and Innovation Office

Scholarship holder: an applicant awarded an EKÖP scholarship

Applicant: a person submitting an application for the EKÖP scholarship

Sponsor: University of Pannonia

2. Purpose of the call

2.1. The Ministry of Culture and Innovation, from the National Research, Development and Innovation Fund (hereinafter: NRDI Fund), through the National Research, Development and Innovation Office (hereinafter: NRDI Office), provides funding to the University of Pannonia for the establishment and operation of the University Research Scholarship Program on the basis of Government Decree 24/2013. (II. 5.) on national excellence in higher education.

2.2. The purpose of EKÖP is to ensure the future supply of lecturers and researchers for higher education institutions, as well as research and development professionals for innovative Hungarian enterprises, and to involve the most talented students in higher-education talent development.

2.3. The scholarship calls announced under the programme in 2026 support excellence among students and researchers participating in higher education by supporting students in bachelor's, master's or doctoral training, as well as young lecturers and researchers, who carry out successful research and creative activities at the higher education institution.

3. Statutory obligations of the higher education institution

3.1. A higher education institution with an EKÖP allocation must announce the EKÖP scholarship call at every training level specified in the Government Decree, provided that it launches such training.

3.2. EKÖP scholarship calls are announced by the higher education institution and published on its website. The higher education institution must send the EKÖP scholarship calls to the NRDI Office for approval at least 30 days before publication.

3.3. The higher education institution is responsible for the full electronic administration of the scholarship application procedure, including in particular the evaluation of applications, the adoption

of the funding decision, the preparation of contracts related to the scholarship programme, and the disbursement of scholarships awarded through the application process.

3.4. The higher education institution must also organise at least one event per year for scholarship holders and former scholarship holders who have already obtained a degree.

3.5. Regarding the above tasks, the higher education institution shall prepare a professional and financial report for the NRDI Office by 30 November of each scholarship year for each academic year concerned. The assessment of the professional and financial report is taken into account by the Research Excellence Council when determining the next year's EKÖP allocation.

4. Form and amount of the scholarship

4.1. Funding may be obtained in the form of a scholarship through an application procedure, and the Sponsor shall arrange for payment to the bank account indicated by the applicant in the application.

4.2. Under the Government Decree, the amount of the scholarship is at least HUF 125,000/month/person and at most HUF 250,000/month/person. The exact scholarship amounts and the supported programmes, doctoral schools and organisational units are determined on the basis of the table in Annex 1.

4.3. The duration of the scholarship period may be:

Depending on the category applied for, the scholarship may last 5, 6, 7, 10 or 12 months. In all cases the scholarship period consists of whole months and—except for the 6-month scholarship—may start only on 1 September or 1 February. A 7-month scholarship cannot start in the autumn semester, and the scholarship period may not extend beyond the academic year.

4.3.a. Bachelor's and Master's categories (single-cycle or divided):

- 5 months (1 September 2026 – 31 January 2027 or 1 February 2027 – 30 June 2027)
- ***10 months (1 September 2026 – 30 June 2027)***

4.3.b. Doctoral training category (uniformly for Doctoral I: applicants in the first phase of doctoral training and Doctoral II: applicants in the second phase of doctoral training):

- ***5 months (1 September 2026 – 31 January 2027)***
- ***7 months (1 February 2027 – 31 August 2027)***
- ***12 months (1 September 2026 – 31 August 2027)***

4.3.c. Young lecturer, researcher category (uniformly for Young Lecturer, Researcher I and Young Lecturer, Researcher II):

at least 6 and at most 12 months (starting between 1 September 2026 and 1 March 2027, provided that the scholarship period may start only on the first day of a month and must end no later than 31 August 2027.)

4.4. Scholarship status terminates upon the termination, during the scholarship period, of the legal relationship forming the basis of eligibility, or on the last day of the semester in which the applicant obtains the absolutorium.

5. Eligibility conditions, application categories

An application for this scholarship may be submitted by a natural person who fully meets the conditions below, who will not yet have reached the age of 45 in the year of the application (that is, by 31 August 2027), and who has outstanding scientific and/or professional and/or academic achievements. In the presence of exceptionally justified circumstances, the rector may waive the age limit requirement.

5.1. Bachelor's category

- has active student status during the implementation period of the application in one of the bachelor's programmes listed in Annex 1, in either full-time or correspondence form, and
- ***an additional condition is that, in the current bachelor's programme (or in the currently active higher education vocational programme providing entry to the bachelor's programme), the scholarship index of the last two completed semesters must be at least 3.51 per completed semester in STEM training and at least 4.00 in non-STEM training. If the applicant has only one completed semester, the scholarship index of that completed semester shall be taken into account.***
- ***Successful applicants must verify their active student status when the scholarship relationship is established.***

5.2. Master's category

- has active student status during the implementation period of the application in one of the master's programmes listed in Annex 1, in either full-time or correspondence form, and
- ***an additional condition is that, in the current master's programme OR in a bachelor's programme meeting the above condition (Section 5.1), the scholarship index of the last two completed semesters must be at least 3.51 per completed semester in STEM training and at least 4.00 in non-STEM training. If the applicant has only one completed semester, the scholarship index of that completed semester shall be taken into account.***
- ***Successful applicants must verify their active student status when the scholarship relationship is established.***

5.3. Doctoral training category

- pursues active doctoral studies during the implementation period of the application in one of the doctoral schools listed in Annex 1, in either full-time or correspondence form, and
- ***Successful applicants must verify their active student status when the scholarship relationship is established.***

5.3.1 Doctoral I category

- ***At the start of the scholarship period, the applicant has active student status in any form of study in one of the doctoral schools of the University of Pannonia listed in Annex 1, and at the start of the application is in the training and research phase of studies (semesters 1–4)***

OR

- ***has submitted or intends to submit an application for admission to a doctoral programme announced for the 2026/2027 academic year, in full-time or correspondence form, in one of the doctoral schools of the University of Pannonia listed in Annex 1.***

5.3.2 Doctoral II category

- ***At the start of the scholarship period, the applicant has active student status in one of the doctoral schools of the University of Pannonia listed in Annex 1 and is in the research and dissertation phase of studies (semesters 5–8).***

5.4. Young lecturer, researcher category

- carries out teaching and/or research activity in one of the organisational units listed in Annex 1, and
- has obtained the absolutorium in doctoral training and has not yet obtained the degree, or obtained the degree within the last 5 years, and
- ***in the case of an applicant raising a child, the application age limit may be extended by the duration of the leave taken for childcare after obtaining the doctoral degree.***

5.4.1. Young Lecturer, Researcher I

- ***has obtained the absolutorium in doctoral training, or will obtain the absolutorium by 31 August 2026 and has not yet obtained the degree, or obtained the degree within the last 2 years***

5.4.2. Young Lecturer, Researcher II

- ***obtained the degree within the last 2–5 years.***
- ***Successful applicants must verify, when the scholarship relationship is established, that between 1 September 2026 and 31 August 2027, during the scholarship period, they are in an employment relationship with the University of Pannonia as a lecturer or researcher, or in another legal relationship aimed at the performance of work.***

5.5. The eligibility conditions must be met from the first day of the scholarship period. In every type of application, an additional condition is that applicants must be able to verify the legal relationship forming the basis of eligibility when the scholarship relationship is established.

6. Grounds for exclusion

6.1. The following applicant may not receive a scholarship:

- if it is credibly proven that, when submitting the application, the applicant provided untrue, false or misleading information materially influencing the content of the funding decision, or made such a statement,

- ***who in previous years was awarded a scholarship in an EKÖP or (EKÖP)-KDP application, but—through his or her own fault—did not fully fulfil the commitments undertaken in the application, or did not obtain at least a "satisfactory" rating during evaluation,***
- who fails to make the declarations required in the call or as a condition for concluding the scholarship contract, fails to submit the required documents, or withdraws a declaration already made,
- who made the funding decision, or who participated as a preparer of the decision in making the funding decision.

6.2. An application may not be funded if its implementation, the manner of its implementation, or its result:

- constitutes a criminal offence or incitement to commit a criminal offence,
- violates a fundamental human or constitutional right,
- harms the dignity of the nation, national, ethnic, linguistic and other minorities, as well as other nations, or other fundamental interests of society, in particular where it conflicts with public order, public morals, or the protection of the family and minors.

6.3. If EKÖP, EKÖP-KDP, and the TDK scholarships of the Foundation for the University of Pannonia, as well as the Research Starter Programme, are all awarded together, the scholarship holder may receive only one scholarship of his or her choice.

7. Administration of the call

7.1. The amount available for supporting applications in the 2026/2027 academic year is planned to be HUF 154,032,672.

7.2. Applications submitted shall be evaluated by experts invited by the rector, using scoring, in the manner and according to the criteria set out in this call. Based on the ranking of the evaluated applications, the rector will decide on awarding the scholarships by 10 August 2026.

7.3. The rector may deviate from the ranking established on the basis of expert evaluation for professional reasons (e.g. in line with the strategic objectives of the institution—Institutional Development Plan, priority scientific field, priority research topic).

7.4. The institution shall publish the funding decision on its website.

7.5. The Sponsor is responsible for rating, accepting or rejecting the professional final reports of the scholarship holders.

8. Scholarship period

8.1. The scholarship period is the period defined in Section 4.3 of the call for applications.

8.2. Before the funding decision is made, the applicant awarded support may, at his or her own risk, begin implementing the contents of the application earlier. Earlier commencement of implementation does not affect the length, start date or end date of the scholarship period.

9. Submission of the application

9.1. Applications may be submitted between 18 May 2026 and 15 June 2026.

9.2. The scholarship is individual support; therefore, the application may only be submitted individually.

9.3. At the University of Pannonia, EKÖP applications for the 2026/2027 academic year must be submitted exclusively electronically through the Moodle system accessible from the EKÖP application page.

9.4. The applicant may submit applications in two categories in parallel if, on the basis of his or her legal status, he or she can apply in different categories in the first and second semesters of the academic year. For example, the applicant may have master's student status in the autumn semester and is expected to have doctoral student status in the second semester.

10. Mandatory commitments

10.1. In every category, the applicant undertakes that he or she:

- during the scholarship period, carries out research activity under the supervision of a supervisor (independently in the Young Lecturer, Researcher category), and makes the results of his or her scientific research and development work accessible to the Sponsor during the scholarship period,
- **presents the results of the research activity carried out during the scholarship period at an internal EKÖP event of the institution AND at one additional (domestic/international) conference or other professional event,**
- contributes to the catching-up of the students of the higher education institution (except in the bachelor's category) and to talent development, and
- popularises the results of his or her research activity.

10.2. In the Bachelor's category:

- during the scholarship period, prepares a Scientific Students' Associations (TDK) paper related to the research plan and presents it at a TDK conference organised by any higher education institution,
- presents the results of the research activity carried out during the scholarship period at an internal EKÖP event of the institution and at one additional domestic or international conference or other professional event,

10.3. In the Master's category:

- during the scholarship period, prepares a Scientific Students' Associations (TDK) paper related to the research plan and presents it at a TDK conference organised by any higher education institution,
- presents the results of the research activity carried out during the scholarship period at an internal EKÖP event of the institution and at one additional domestic or international conference or other professional event,
- if, during the scholarship relationship, the scholarship holder makes use of the possibility laid down in Section 53 (3a) of the Nftv. and, in parallel with studies in the final year of the master's programme, also participates in preparation forming part of doctoral training, then the scholarship holder further undertakes to:
    - complete at least four credits per semester that can be recognised in doctoral training;

- apply for doctoral training;
- pass the doctoral admission examination.

10.4. In the Doctoral training category:

- carry out additional research activity beyond the research work required by the doctoral studies,
- publish at least one scientific publication, or have it accepted for publication by the publisher,
- presents the results of the research activity carried out during the scholarship period at an internal EKÖP event of the institution and at one additional domestic or international conference or other professional event,

10.5. In the Young Lecturer, Researcher category:

- publish at least one scientific publication, or have it accepted for publication by the publisher, and
- presents the results of the research activity carried out during the scholarship period at an internal EKÖP event of the institution and at one additional domestic or international conference or other professional event,

11. Evaluation criteria

The evaluation criteria are set out in the annexes by category:
- evaluation criteria for the bachelor's and master's categories
- evaluation criteria for the Doctoral I and Doctoral II categories
- evaluation criteria for the Young Lecturer, Researcher I and Young Lecturer, Researcher II categories

12. Documents to be submitted

- All mandatory documents must be completed in the template format. Modification, deletion, or addition in the fields of the published templates is not permitted.
- Application Form completed in full, in Hungarian or English.
- Research plan, which must include the research topic, the aim of the research, a general problem statement related to the research topic, and the personal motivation for choosing the topic (in Hungarian or English).
- Applicant's declaration, completed in full, in Hungarian or English.
- Letter of intent signed electronically by the head of the host Faculty, OR the printed version signed by hand by him/her, scanned and submitted as a PDF.
- In the case of bachelor's and master's training, a certificate of the scholarship index printed from the NEPTUN student academic system, authenticated by the Directorate of Education, complete and issued separately for each semester, in Hungarian.

Requirements for documents bearing a handwritten or electronic signature:

- a) the declaration must bear an electronic signature based on a qualified certificate with at least advanced security, or
- b) the declaration must be authenticated using DÁP, or
- c) the printed and hand-signed document must be submitted in scanned PDF format.

13. Duties of the supervisor

13.1. During the scholarship period, the supervisor's task is to provide professional support related to the implementation of the scholarship holder's research plan, maintain regular contact with the scholarship holder for the purpose of carrying out the research activity, and prepare consultation records. In addition, as part of the scholarship holder's professional final report, the supervisor prepares a professional evaluation.

13.2. As part of his or her duties, the supervisor is required to hold at least one personal/online consultation per month with the scholarship holder in order to professionally support the research activity, and to issue a consultation record signed also by the scholarship holder as proof thereof; this record shall be attached to the scholarship holder's professional final report.

13.3. The supervisor is not entitled to remuneration from the EKÖP allocation.

14. Use of the scholarship, reporting rules

14.1. The full amount of the scholarship may be freely used without any obligation to account for it.

14.2. Within 10 calendar days from the last day of the scholarship period specified in the scholarship contract, the scholarship holder must submit to the Sponsor a detailed professional final report on the fulfilment of the mandatory commitments stated in the Call and the tasks set out in the undertaken research plan.

14.3. The Sponsor shall assess the professional final report no later than 31 October 2027.

15. Method of financing the scholarship

15.1. The Sponsor concludes a contract with the scholarship holders (hereinafter: Scholarship Contract), which records the conditions and rules for the disbursement of the scholarship. Scholarship payments to scholarship holders may begin only after the Scholarship Contracts have been concluded. A condition for concluding the Scholarship Contract is that the scholarship holder has a tax identification number.

15.2. The scholarship holder acknowledges that, pursuant to points 4.12.1. c), 4.12.2., and 4.12.3. of Annex 1 to Act CXVII of 1995 on Personal Income Tax, the scholarship paid to him or her is—under Hungarian law—income exempt from personal income tax.

15.3. To receive the scholarship, the applicant must have a bank account held with a Hungarian financial institution by the day of conclusion of the Scholarship Contract at the latest, and until the end of the scholarship relationship.

16. Formal review of the validity of the application, correction of deficiencies

16.1. The Sponsor carries out the acceptance and formal review of applications.

16.2. By the seventh day following receipt of the application, the Sponsor informs the applicant whether the application has been accepted and substantive assessment has begun, or, in the event of rejection without substantive examination, of the reason for rejection and the method for submitting an objection.

Among multiple applications submitted under this call by the same applicant, the one submitted later shall be rejected without substantive examination (regardless of the result of the application submitted first).

16.3. In the following cases, there is no possibility for correction of deficiencies; the application shall be rejected without substantive examination:

- the applicant does not meet the requirements specified in Section 5,
- the application is illegible, or contains false or misleading data,

16.4. If, during the formal review, the Sponsor determines that the application is incomplete and the deficiencies are such that they can be remedied and the application can be made formally compliant through correction, the applicant shall be invited once to correct the deficiencies by electronic notice sent to the e-mail address provided on the Application Form, indicating the errors, deficiencies and the method of correction, with a correction deadline of at most 5 working days from the sending of the notice.

16.5. The application is invalid if

- the applicant has not remedied the deficiencies even in the course of correction, or has not done so in the manner specified in the request for correction, or has not complied by the deadline indicated in the request for correction. In the event of an invalid application, the Sponsor establishes the invalidity of the application and sends the applicant an electronic notice of rejection without further examination, indicating the reason for invalidity,

16.6. The Sponsor shall notify the applicant of the result of the formal review of the application no later than 30 June 2026.

17. Evaluation process

17.1. At the applicant's request, the Sponsor shall provide the possibility, electronically, to inspect the evaluations, while preserving the anonymity of the evaluators.

17.2. The submitted applications are evaluated by faculty expert bodies. The evaluation criteria for each application type concerned by institutional evaluation are determined as specified in the calls for applications. The experts score the submitted application materials and prepare expert evaluations by the deadline set in this call. When scoring the individual evaluation categories, the disciplinary characteristics of the faculty and the doctoral school must be taken into account. The scoring must reflect the value system considered important from the faculty's perspective.
Under no circumstances may the principles laid down in the call or the maximum scores that may be awarded in each category be deviated from.
In line with the budget allocated to them, the faculties prepare a list containing the scores and bearing the signatures of the evaluators, and make a proposal for funding and ranking, including the ranking of the reserve list.
On the basis of the materials received from the faculties (scores, ranking and proposed reserve-list ranking), the Operational Committee appointed by the rector finalises the institutional ranking.

18. Waiver, suspension, termination of the scholarship relationship, and other provisions

18.1. Waiver

If the applicant or scholarship holder waives the scholarship, he or she must notify the Sponsor immediately in writing. From the first day of the month in which the waiver is reported, the scholarship holder is no longer entitled to the scholarship and it may not be paid. If payment has nevertheless been made, the scholarship holder must repay the unduly received scholarship to the Sponsor, without special notice, within 30 days from the waiver. Within 30 days from the date of reporting the waiver, the scholarship holder must submit a professional final report to the Sponsor, which will be evaluated by the Sponsor with the involvement of experts. If the scholarship holder fails to submit the report, or if the Sponsor does not accept the report and the reason for the waiver, the Sponsor may propose excluding the scholarship holder for three years. The Sponsor may also establish undue support in relation to earlier scholarship payments. In the case of support unduly received, the repayment obligation extends to the amount unduly received by the scholarship holder. The Sponsor shall reclaim the scholarship paid without entitlement from the scholarship holder.

18.2. Suspension

If long-term illness, pregnancy, childbirth, a prolonged stay abroad, or another justifiable reason prevents implementation of the submitted application in its original form, or if the scholarship holder's student status is suspended (passive semester) but he or she intends to continue the research, the scholarship holder may suspend the scholarship relationship for at least 2 and at most 5 months during the scholarship relationship (partial months are not possible). The request for suspension, together with the modified research plan and documents supporting the reason for suspension, must be submitted to the rector, on which the Sponsor shall decide, if necessary with the involvement of experts. If the scholarship holder suspends the scholarship relationship, he or she is not entitled to the scholarship during the period of suspension. If the scholarship has already been paid for the period of suspension, the scholarship holder must repay it to the Sponsor within 30 days, without special notice. The period of suspension does not extend the duration of the scholarship relationship.

18.3. Termination of the scholarship relationship

18.3.1. Inadequate performance

If the scholarship holder fails to fulfil, or inadequately fulfils, the obligations set out in the Scholarship Contract, the Sponsor may decide to withdraw the support and may establish unduly received support in relation to previous payments. In the case of support unduly received, the repayment obligation extends to the amount unduly paid to the scholarship holder. The Sponsor shall reclaim the unduly received scholarship from the scholarship holder. The scholarship relationship terminates on the day of written notification of the Sponsor's decision to withdraw the support, and within 30 days from that date the scholarship holder must submit to the rector a professional final report on the implementation of the research activity, which will be evaluated by the Sponsor with the involvement of experts.

18.3.2. Termination of the legal relationship forming the basis of eligibility

If, during the scholarship period, the legal relationship forming the basis of eligibility of the scholarship holder terminates, then the scholarship relationship—and consequently the payment of the scholarship—also terminates. From the first day of the month in which the legal relationship forming the basis of eligibility terminates, the scholarship holder is no longer entitled to the scholarship. Any scholarship paid without entitlement must be repaid by the scholarship holder to the Sponsor. Within 30 days from the day of termination of the legal relationship

forming the basis of eligibility (which is also the day of termination of the scholarship relationship), the scholarship holder must submit to the rector a professional final report on the implementation of the research, which will be evaluated by the Sponsor with the involvement of experts.

18.4. Change of higher education institution and/or change of faculty or programme within the higher education institution

A change of higher education institution, or a change of faculty or programme within the higher education institution, is not possible during the scholarship period. If the scholarship holder changes higher education institution, faculty or programme during the scholarship period, the scholarship relationship terminates, and from the day on which the institutional decision on the change becomes final, he or she is no longer entitled to the awarded scholarship. Within 30 days from the day of termination of the scholarship relationship (the day on which the institutional decision becomes final), the scholarship holder must submit to the rector a professional final report on the implementation of the research, which will be evaluated by the Sponsor with the involvement of experts.

19. Accounting for the institutional support

The provisions of the instrument of support issued by the NRDI Office to the higher education institution shall govern the accounting of the higher education institution.

20. Publicity

In his or her communications and publications, the scholarship holder must indicate the name University Research Scholarship Program [University Research Scholarship Programme (EKÖP)], the name of the Ministry of Culture and Innovation, and the name of the National Research, Development and Innovation Fund and—where the form of communication permits—its official graphic logo. The logo can be downloaded from the following page: https://nkfih.gov.hu/palyazoknak/aktualis-felhivasok/osztondijak.https://nkfih.gov.hu/palyazoknak/aktualis-felhivasok/osztondijak

21. Other conditions

By signing the declaration applicable to them, the applicant and the supervisor consent, in accordance with the contents thereof, to the processing of their personal data by the Sponsor, the Ministry of Culture and Innovation and the National Research, Development and Innovation Office.

22. Handling of objections

22.1. No appeal may be submitted to another body against the funding decision.

22.2. If the applicant wishes to raise an objection regarding the procedure, he or she may submit it, together with a detailed justification, to the EKÖP Committee within no more than 5 working days following the notification.

22.3. An objection may be submitted by post to the correspondence address of the University of Pannonia: University of Pannonia, 8200 Veszprém, Egyetem utca 10., or electronically to ekop@uni-pannon.hu.

22.4. The objection must contain:

a. the name and address of the person submitting the objection,
b. the application form and research plan concerned by the objection,
c. a specification of the challenged measure or omission,
d. an exact statement of the facts serving as the basis of the objection,
e. the signature of the person submitting the objection.

22.5. If the objection is well founded, the rector of the University of Pannonia shall decide on it on the basis of the proposal of the EKÖP Committee. The person submitting the objection shall be informed within 3 working days of the measure taken in response to the objection.

23. Further information

23.1. The Call and its annexes together constitute the application documentation and contain all conditions necessary for submitting the application.

23.2. The documents of the application package can be downloaded from the University of Pannonia's platform: https://uni-pannon.hu/ekop

23.3. The applicant may request further information related to the application at the following contact details:

ekop@uni-pannon.hu
+36 88 623 - 776

Annexes

1. Supported programmes, doctoral schools and organisational units
2. Research plan, scientific field classification
3. Application form
4. Applicant's declaration
5. Supervisor's declaration
6. Evaluation criteria
7. ***EKOP_Host declaration of intent***

Annex 1: Supported programmes and organisational units

Category	Name of programme / Organisational unit	Monthly scholarship amount
Bachelor's	***any programme at the University of Pannonia that is ongoing in the 2025/2026 academic year according to OSAP statistics, or any bachelor's programme announced in the admissions guide for the 2026/2027 academic year***	***125 000 HUF***
Master's	***any programme at the University of Pannonia that is ongoing in the 2025/2026 academic year according to OSAP statistics, or any master's programme announced in the admissions guide for the 2026/2027 academic year***	***125 000 HUF***
Doctoral training: Doctoral I and Doctoral II categories uniformly	***any programme of any of the 5 doctoral schools of the University of Pannonia***	***185 000 HUF***
Young lecturer, researcher (for Categories I and II alike)	***any organisational unit included in the official organogram of the University of Pannonia***	***250 000 HUF***
